SWEDEN.

LIST OF ARTICLES THE EXPORT OF WHICH IS PROHIBITED.

October 25, 1915.

NOTES.

(1) A Swedish Royal Decree of the 9th January 1915, definitively prohibited the *transit* through Sweden of arms, ammunition, and other war material, as specified in the decree.

The Swedish Government issued on the 4th May 1915, a decree which had the effect of extending the operation of the Swedish prohibitions of export to *all* goods in transit between the United Kingdom and Russia, which are on the Swedish export prohibition list. Since the 16th August 1915, this prohibition of transit has been applied also to goods sent through Sweden by parcel post.

(2) *As from the 22nd April 1915, the export is prohibited of goods regard to which no special prohibition of export has been enforced, but which are manufactured wholly or in part from materials of which the exportation is prohibited, if it appears from the quantity of the material employed or from some other circumstance that the working-up to which the material has been subjected is merely intended to facilitate the exportation of the prohibited materials of which the goods consist.*

(3) The numbers and letter quoted below relate* to the headings of the "Statistical Index of Goods" under which the prohibited articles fall.

The *numbers* are the same as those of the Swedish Customs Tariff*; the *letters* indicate the sub-divisions of the numbers, and are found only in the "Statistical Index"—which is considerably more detailed in classification than the Customs Tariff.

LIST OF ARTICLES THE EXPORTATION OF WHICH IS PROHIBITED.

22nd October 1915.

NOTES.

1. As regards goods in transit and transhipment goods (in the Copenhagen free port and all other Danish harbours), all such goods, if of a kind prohibited to be exported from Denmark, are covered by the prohibition unless they are on a through bill of lading to a port in a foreign (non-Danish) country.

The prohibition is therefore applicable in cases where the goods are either shipped to a Danish port "to order," or where the goods are redestined to another port than the one originally mentioned in the bill of lading (unless it is merely a question of redestination to another port in the same country).

(20928.)

2. According to an official notice published in the "Berlingske Tidende" of the 12th February, 1915, permissions to export granted by the Ministry of Justice are valid only for one month from the day on which permission was granted, unless other conditions are determined in the permit itself.
